DURABLE WOOD FIBRE
CUTLERY WITH A UNIQUE
USER EXPERIENCE.

~0% of new material needed to produce our cutlery.

WELCOME

Nature Line reusable cutlery is manufactured in our new factory in Outokumpu, North Karelia, Eastern Finland, with the use of state-of-the-art technology in injection moulding operating under the highest food safety standards. Our cutlery is aligned with the latest EU-legislation and directives (SUP, PPW, Green Deal) and is supporting a wide scale shift towards the use of reusable alternatives.

Our cutlery provide consumers with a unique user experience that is supported by our unmatched sustainable story and food safety. We are an open, flexible, and efficient partner with a staff of professionals, whose cornerstones are quality of operation and speed of service with a high-quality, safe products.

Choose from our Nature Line branded items to find the most suitable solution that is ready in stock or contact our sales team for private label options. Our catalogue contain detailed descriptions for the features and benefits of each item. Reduce the carbon footprint and the environmental impact of your supply chain while improving the customer experience by changing to the Nature Line Cutlery.

SUSTAINABLE SOLUTION

Made in Finland

Recycle ready

Based almost 100% on renewable materials

Utilizing only forest industry side streams

Lowest CO2 emission on the market
(Carbon footprint is -1,20 kg/1kg of cutlery at the end of use stage.)

The raw material does not contain any unauthorized vegetable fibres such as bamboo or rice flour or any other unauthorized material.
