REUSABLE TABLEWARE
CRAFTED FROM CIRCULAR
AND RENEWABLE MATERIALS.

Less than 5%
of new material
needed to produce
our products

WELCOME

Founded in 2020, Nature Line manufactures over 100 million sustainable tableware products annually at its modern factory in Outokumpu, Finland, using state-of-the-art injection moulding technology under the highest food safety standards. Our products comply with the latest EU legislation and support the transition towards more sustainable materials.

Our products provide consumers with a unique user experience that is supported by our unmatched sustainable story and food safety. We are an transparent, flexible, and efficient partner with a staff of professionals, whose cornerstones are quality of operation and speed of service with a high-quality, safe products.

Choose from our Nature Line branded items to find the most suitable solution that is ready in stock or contact our sales team for private label options. Our catalogue contain detailed descriptions for the features and benefits of each item. Reduce the carbon footprint and the environmental impact of your supply chain while improving the customer experience by changing to the Nature Line Cutlery.
